SKILLS

- Frontend Development: React.js, HTML, CSS, JavaScript, Responsive Design
- Backend Development: Node.js, Express.js, MongoDB, MySQL
- Mobile Development: React Native, Expo
- Database Management: MongoDB, SQLite, MySQL
- Tools & Platforms: Git, GitHub, Postman, VS Code
- Design Skills: Graphic Design, UI/UX, Adobe Photoshop, AI-based Logo Design
- Other Skills: REST APIs, CRUD Operations, Authentication & Authorization, IndexedDB

LANGUAGES

- Urdu: Native
- English: Intermediate
- Gujarati: Native
- Hindi: Basic (Understanding and Speaking)

PROFILE

Hi, I Am Munawwar ishaq, A MERN Stack Developer And Work As a React Js Front End Expert. js, Node. js, and MongoDB. I love to design web and mobile application with more efficiency. I want to use my knowledge and add more value by being part of some innovative projects.

WORK EXPERIENCE

Personal Projects - MERN Stack Development

(2022 - PRESENT)

Built several web applications with MERN Stack, involving MongoDB, Express. js js, React. js, and Node. js. Produced Agile and responsive UIs as well Responsive backend. Designed to adhere to best coding practices, while also being performant and providing a high-quality user experience for all projects.

Academic Projects – Advanced Web and Mobile Applications

(2023 – PRESENT)

Completed projects such as an an Attendance Management System and a Chat Application as part of academic coursework. There were applications and system level projects which enhanced my project management and problem solving skills while putting theory into practice.

Collaborative Coding and Learning

(2023 - PRESENT)

I have been an active member of various online coding forums and community learning sites. By taking part in coding challenges, peer reviews, and group projects, participation was aimed at improving problem-solving abilities and seeking current trends in the industry. This involvement has been very important in improving my coding practices in terms of teamwork.

Go Language and Python Flask Learning and Development

(2024 – PRESENT)

At present, I am also enlarging my programming experiences in Go Language and Python Flask through online programs and exercises. Focusing on deploying Go for implementing systems able to handle large traffic loads and Python Flask for creating simple Web applications. This one makes me more adaptable with different development environments and settings, this is because of the continuing learning.

EDUCATION

Pre-Engineering (1st Year Completed)
Currently Enrolled in 2nd Year
HIght School Board, Larkana
Expected Completion: 2025

Diploma in MERN Stack Development
Computer Colligate
Completed: 2024
Certification in backend development using MongoDB, Express.js, React.js, and Node.js.
